

CI BY THE PEOPLE, FOR THE PEOPLE

Nosana introduces a decentralized CI/CD solution on the Solana blockchain. Nosana leverages the Proof-of-History consensus of the Solana Network to build out a truly decentralized continuous integration, delivery, and deployment platform for open source repositories

For every developer that values transparency and trust.

Decentralized

Nosana runs any CI/CD pipeline openly and transparently. Computation by the people, for the people.

Secure

Nosana Guarantees security with Solana's high-performance blockchain.

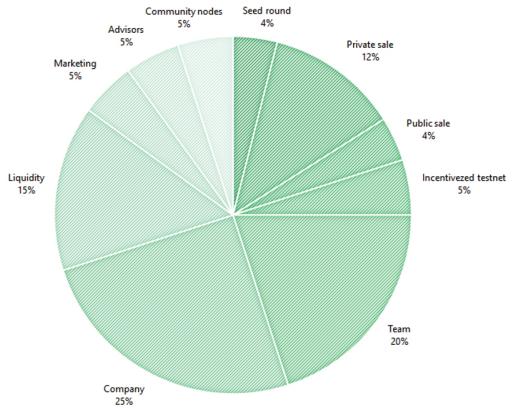

Marketplace

Nosana is an open marketplace for CI/CD. Earn your tokens on empty compute cycles!
